SCIENTIFIC PROGRAM

Thursday, 5 May 2022

Instability & Athletic shoulder

08:00 - 09:30

SESSION 1

Moderators

Maristella Francesca Saccomanno | Berte Bøe

How to evaluate the patient with instability in 2022

Ioannis Chiotis

On-track/Off-track lesions. MRI and CT evaluation. How to apply it in your routine

Frank Martetschläger

What is the critical and subcritical glenoid bone loss and how to use them for making your decision

Christos Sinopidis

Posterior instability. Treatment options

Zinon Kokkalis

MDI - Evaluation - Management

TBA

Functional instability and pacemaker. A breakthrough?

Philipp Moroder

Discussion

09:30 - 10:00

WELCOME ADDRESSES

Innovation in shoulder surgery

SCIENTIFIC PROGRAM

Thursday, 5 May 2022

10:30 - 11:45

SESSION 2

Moderators

Michael Hantes | Christos Koukos

The ASA is gaining popularity

Marco Maiotti

DAS. The new alternative

Clara Azevedo

Collagen membrane scaffold. When is indicated

Giuseppe Milano

Is Remplissage the "game changer"?

Pietro Randelli

Augmenting the @ Bankart repair. Why to do it?

Manos Brilakis

Discussion

11:45 - 12:45

SESSION 3 - RELIVE SURGERIES

Moderators

Anastasios Deligeorgis | Clara Azevedo

Relive Surgeries - Instability Cases

Innovation in shoulder surgery

SCIENTIFIC PROGRAM

Thursday, 5 May 2022

13:45 - 14:45

SESSION 4

Moderators

Antonio Cartucho | Ladislav Kovacic

Which are the limits of soft tissue procedures?

Bruno Toussaint

Is there any indication for open Bankart Repair still in 2022?

Daniel Moya

Is the Latarjet the Golden Standard for the management of instability?

Tom Clement Ludvigsen

General concepts and our treatment algorithm for instability cases

Manos Antonogiannakis

Discussion

14:45 - 15:10

SESSION 5 - KEYNOTE LECTURE

Moderators

Enrico Gervasi | Manos Antonogiannakis

The learning curve of Arthroscopic Latarjet

Tom Clement Ludvigsen

Discussion

15:10 - 15:40

Break

Innovation in shoulder surgery

SCIENTIFIC PROGRAM

Thursday, 5 May 2022

15:40 - 16:30

SESSION 6 - THE #MiniBattles face2face

Moderators

Manos Brilakis | Knut Beitzel

Why I perform Open Latarjet?

Michael Hantes

Why I perform Arthroscopic Latarjet?

Jean Kany

Why I perform Arthroscopic Eden-Hybinette?

TBA

Discussion

16:30 - 17:15

SESSION 7

Moderators

TBA | Nuno Gomes

Complication rate of the Latarjet procedure. Tips and tricks to reduce it

Benjamin Marjanovic

Osteoarthritis development after Latarjet. Tips and tricks to reduce it

Achilleas Boutsiadis

Arthroscopic glenoid reconstruction with xenograft plus ASA for the management of shoulder instability with glenoid bone loss

Marco Maiotti

Discussion

17:15 - 17:40

SESSION 8 - KEYNOTE LECTURE

Moderators

Bruno Toussaint | Antoon Van Raebroeckx

How to manage the failed instability surgery?

Philippe Valenti

Discussion

Innovation in shoulder surgery

SCIENTIFIC PROGRAM

Thursday, 5 May 2022

17:40 - 18:40

SESSION 9

Moderators

Anastasios Georgoulis | Ioannis Triantafyllopoulos

Considerations for AC Joint injuries. Which is the treatment algorithm

Knut Beitzel

Acute dislocations. Which are the keys for a successful treatment?

Claudio Rosso

Chronic dislocations. When the acute becomes chronic and which is the proper management?

Gonzalo Samitier

Degenerative AC Joint. When to operate and how to do it right?

Ladislav Kovacic

Discussion

18:40 - 19:05

SESSION 10 - KEYNOTE LECTURE

Moderators

TBA | Pantelis Nicolaou

The throwers' shoulder

Klaus Bak

Discussion

SCIENTIFIC PROGRAM

Friday, 6 May 2022

Rotator Cuff Disease | From Repairing To Replacing

08:00 - 09:00

SESSION 11

Moderators

TBA | Ioannis Chiotis

Anatomy variants and how they are related to RC pathology

Aristeidis Zibis

The cuff pathology. The radiologist's perspective.

Margarita Natsika

How the anaesthesiologist can make the life of the surgeon easier?

Eirini Sarri

Cuff tears. When conservative treatment is indicated

Maria Papatzikou

Discussion

09:00 - 10:00

SESSION 12

Moderators

Andreas Panagopoulos | Daniel Moya

What is the natural history of a rotator cuff tear?

Ana Catarina Angelo

How to address partial thickness tears conservatively?

Maristella Francesca Saccomanno

Calcifying tendonitis. Conservative and surgical treatment. What is the borderline?

Frank Martetschläger

The stiff shoulder. Is it really a surgical problem?

Klaus Bak

Discussion

10:00 - 10:30

Break

SESSION 13 - RELIVE SURGERIES

Moderators

Anastasios Deligeorgis | TBA

Relive Surgeries - Repair options of RC Tears

Discussion

11:30 - 12:45

SESSION 14

Moderators

Frank Martetschläger | Ana Catarina Angelo

Which is the best way to repair SSC tears in 2022?

Antonio Cartucho

PS tears. Single, double row, transosseous. Which are the trends in 2022?

Antoon Van Raebroeckx

Transosseous repair. Advantages and disadvantages

Brett Sanders

Biological enhancement of tendon healing. Which are the new trends?

Andreas Voss

Patches over the repair. Is this the future?

Miguel A. Ruiz Ibán

SCIENTIFIC PROGRAM

Friday, 6 May 2022

13:45- 14:15

SESSION 15

Moderators

Georgios Arealis | TBA

The biceps and its new role in the management of RC tears

Nuno Gomes

Pre-operative evaluation. How to predict which tear can be repaired and which not?

Berte Bøe

Discussion

14:15 - 15:35

SESSION 16 - THE #MiniBattles face2face | How to manage an Irreparable RC Tear

Moderators

Manos Antonogiannakis | Bassem Elhassan

I use partial repair

Grigorios Avramidis

I use SCR with Fascia Lata

Teruhisa Mihata

I use SCR with hamstrings

Giuseppe Milano

I use the long head of biceps

TBA

I use the subacromial balloon spacer

SESSION 20

Moderators

Klaus Bak | Andreas Leonidou

Pectoralis Major & Anterior Latissimus Dorsi Transfer for Subscapularis Tears
Thibault Lafosse

Massive irreparable RC tears. Partial repair or use of Patch substitute?
TBA

Do we really need implants for a successful arthroscopic RC repair?
Alessandro Castagna

Discussion

19:05 - 19:30

SESSION 21 - KEYNOTE LECTURE

Moderators

Yiannakopoulos K. Christos | Apostolos Stathellis

The repair cuff. Radiological evaluation
Apostolos Karantanas

Discussion

19:30 - 20:15

SESSION 22 - Reverse for IRMRC Tear

Moderators

Brett Sanders | Giuseppe Milano

When RSA is the only way to go
Jean – David Werthel

Results and expectations of RSA for IRMRC
John G. Costouros

Differences of RSA for cuff arthropathy compared to the other indications of RSA
Georgios Arealis

08:00 - 09:15

SESSION 23

Moderators

Pietro Randelli | Jean – David Werthel

Arthritis of shoulder joint. Which are the causes

Panagiotis Papadopoulos

Arthritis in young individuals. Non-surgical options (viscosupplementation, PRP)

TBA

The role of arthroscopy (release and debridement)

Manos Brilakis

The role of posterior subluxation and possible treatment

Philipp Moroder

The physiotherapist's perspective

Maria Patramani

Discussion

09:15 - 10:15

SESSION 24

Moderators

Peter Vezeridis | Jon J.P. Warner

Anatomic TSA. Current concepts. Indications and future perspectives

Giuseppe Porcellini

All poly-glucoid implants

David Dines

Metal backed implants

Pietro Randelli

What are the limits of anatomic SA in primary shoulder arthritis cases

Alessandro Castagna
